

Overview

"Of course we're having fun...how else are we ever going to get anything serious done around here."

Thomas Edison

***Are you tired of the same old song and dance teambuilding programs?
Are you looking for a teambuilding program that is as topical as is engaging and fun?
Are you looking for a teambuilding program that will totally energize and inspire your team?***

Welcome to TEAMagic!

TEAMagic! is a brand new, highly participatory and dynamic teambuilding experience for corporate, organizational, and educational groups. TEAMagic! is totally unique and fresh in its scope...and we invite you to explore why.

"Lo and behold, it really was magic! In ten minutes I saw more laughs and smiles than I'd seen in years of meetings! I couldn't believe what I was seeing...people were waving wands, telling amazing stories relative to the tricks, wearing all sorts of hats and costumes, clapping and cheering...in ten minutes! The rest of the program multiplied into deeper levels of team bonding, creativity, and laughs. Thanks so much for showing us the magical benefits of teamwork!"

Beverly Alverson, Chelsea Property Group

Corporate and Organizational Programs

Today's unpredictable business environment demands positive, highly motivated teams that gel together quickly to explore new technology, create world class products, deliver winning presentations, and provide inspired support. You don't have time to wait, or the luxury of hoping your team will gain new focus and inspiration through good times and bad. If you need deeper, trusting relationships yesterday...you need **TEAMagic!** today!

The **TEAMagic!** concept is simple; working together to learn and perform magic is inherently fun. It promotes energy, optimism, and team unity. These psychological states establish a wonderful platform for introducing beneficial learning themes, customized to meet the needs of your organization.

A **TEAMagic!** workshop begins well before the program date, as we meet with you to conduct an objectives assessment, to identify organizational goals for the event. Selecting from a repertoire of program modules, the team leader chooses which modules, messages, and skills are most vital to "drive home" during the workshop.

*"I couldn't believe it! I received a standing ovation the morning after our **TEAMagic!** workshop. I was a hero! Everyone loved it from the first minute, and I am positive the energy and teamwork we developed will yield benefits for months to come."*

Nancy Hewitt, TNS Healthcare, UK
