THE Ultimate GAME SHOW

We combine the best features of the most popular game shows. We supply podiums, back-lit scoreboards, lock-out buttons, and individual microphones, sound, music, and, of course, your lively host.

We ask verbal and audio questions. Our game show formats can blend a hilarious "weakest-team" program with "jeopardy-type" questioning and "millionaire-like" drama or "let's make a deal" interaction.

This program is completely portable and can be set up in almost any location. We have questions on hundreds of topics and any style show can be designed for individual or team formats. Our game shows are fun, educational and a great ROI.

We can customize the program so that it specifically relates to your company or product!
